

**You don't need to live here to benefit - Your property valuation goes up!**

**2010**

**MDA - GOALS**

(see other side for 2009 ACCOMPLISHMENTS)

- Open Trout Lake Road as an EMERGENCY EXIT ONLY Currently there are heavy metal gates at each end of this dirt road which will support one lane vehicle traffic from one end to the other. MDA members have been conducting tests on breakaway locks to be approved by Friday Harbor and would breakaway under sufficient force in an emergency situation.
- Ditch work at various locations where water erosion is eating away the Chipseal edges of the road surface
- Weed pulling along Century – Tel buried lines for the 1<sup>st</sup> mile of Mount Dallas Road. (This is done both for fire safety reasons and improved appearance)
- Annual weed whacking of 2.1 miles of Mount Dallas Road (we do this about the 3<sup>rd</sup> week in July for fire safety reasons and improved appearance)
- Work parties for road maintenance and debris removal as needed
- Ongoing support and participation in the FIREWISE COMMUNITIES program headed up by Glenn Kaufman
- Research the history of this banner :

1895 - 1961 ?

- And, whatever else pops up during the year.
